PLEASE NOTE:

ALL SALES ARE FINAL - Buyer must assess the product is fit for purpose prior to purchase. There will be no returns or refunds for any of the clearance stock items listed above.

No further trade/project discount will apply. Prices are marked on the lid of each product in store. Please don't hesitate to ask our friendly staff to assist as the bulk of this stock is stored in an outside shed.

These paints can be tinted, and in fact some are required to be tinted to be usable, however we cannot shake the paint in our machine due to tins/buckets being damaged. It will therefore be the purchasers responsibility to mix the paint themselves, either by hand or with a paint mixer attached to a drill (which we have in stock).

Tint's will be charged as per our standard pricing, which is dependant on your chosen colour.

We take no responsibility if the colour does not match exactly to any previous mixture of paint due to small amounts of paint potentially leaking from the tin/bucket prior to sale.

Mis-tints may not be the exact colour that they are stated they are tinted due to machine errors when originally mixed.
